```

Original version

You'll find the original version and all further updates of "WS-Parachute" here:
<http://www.websector.de/games/parachute/>

Structure (Note: You need Flash 8 to open the *.fla.)

```
*.fla                /source
classes              /source/de/websector/games/parachtute
*.swf / *.html       /deploy
```

Fonts

FFF Harmony - You have to register to download the free pixel font:
<http://www.fontsforflash.com>

MTASC (commandline)

```
mtasc -cp "(your path to your MM classes)" -cp ./source/ -pack /de/websector/games/parachute -swf ./
deploy/ws_parachute.swf /de/websector/games/parachute/Application.as -frame 5 -version 7 -v -main
```
